The following are plea offers for your clients. Please note these expire upon filing of motions or April 1. If your client wishes to accept one, we need to set up a proffer to memorialize their truthful testimony. I think this allows your clients to both accept responsibility and avoid life long consequences. The Coffey family has been consulted. I do not intend to resolve the civil claims at all so please contact their attorney, David Bianchi, if you wish to discuss those issues. Ultimately, the plea also serves the greater goal of changing a culture that condones hazing and binge drinking. All proffers and subsequent accounts are expected to be contrite and sincere. Please let me know if you have any further questions or concerns.
